

## **Cumberland Emerging Technologies Welcomes Launch Tennessee's Margaret Dolan as New Board Member**

**NASHVILLE, Tenn. (June 10, 2019)** – Cumberland Emerging Technologies, Inc. (CET), an incubator of early-stage life science companies, announced today the addition of Margaret Dolan to its board of directors.

Dolan is the president and CEO of Launch Tennessee, a public-private partnership that supports entrepreneurs from ideation to exit. She previously served as a principal with independent consulting firm neil Strategies, LLC and was president and CEO of LocalShares and Saint Thomas Health Foundations. A certified public accountant, she began her career at KPMG, LLC before working for over two decades in various positions at Ingram Industries Inc.

“We are honored to welcome Margaret to our CET board of directors,” said A.J. Kazimi, CEO of Cumberland Pharmaceuticals. “She is an integral part of the Nashville community and brings a unique blend of financial, entrepreneurial and civic experience that will be a tremendous benefit to our organization as we continue to bring new technologies to market.”

In addition to CET, Dolan has served as a board member for numerous other organizations, including Tennessee Business Roundtable, Center for Nonprofit Management, United Way of Metropolitan Nashville, Nashville Area Chamber of Commerce, Nashville Business Coalition and Nashville Downtown Partnership.

A sustaining member of the Junior League of Nashville and a graduate of Leadership Nashville, Dolan was inducted into the prestigious Academy for Women of Achievement by the YWCA of Middle Tennessee in 2015.

She earned her bachelor's degree from the University of Tennessee and her master's from Vanderbilt University's Owen Graduate School of Management.

CET's board of directors also includes A.J. Kazimi, CEO of Cumberland Pharmaceuticals; Kenneth J. Holroyd, assistant vice chancellor for research at Vanderbilt University Medical Center; John A. Smith, professor of pathology at the University of Alabama at Birmingham School of Medicine; Robert Grajewski, Evans family executive director of the Innovation Center at Vanderbilt University; James P. Leyda, former senior director of Hoechst Marion Roussel (now Aventis); and Samuel M. Lawrence, CEO and co-founder of CytoViva, Inc.

## **About Cumberland Emerging Technologies, Inc.**

Cumberland Emerging Technologies, Inc. ([www.cet-fund.com](http://www.cet-fund.com)) is a joint initiative between Cumberland Pharmaceuticals Inc., Vanderbilt University, LaunchTN, and China's Winhealth Pharma Group. The mission of CET is to bring biomedical technologies and products conceived at Vanderbilt University and other regional research centers to the marketplace. CET helps manage the development and commercialization process for select projects and provides expertise on intellectual property, regulatory, manufacturing and marketing issues that are critical to successful new biomedical products. CET's Life Sciences Center, located in Nashville, Tennessee, provides laboratory space, equipment, and infrastructure to early-stage life sciences companies.
